TO: P. Tandler, Technical Manager

DATE: October 12, 1971

FROM: W. E. Dunnick, Vice President

SUBJECT: Secondary Water Treatment at the Village Plant

This morning I talked with Art Raub concerning the possibility that someone from the New York office sitting in with you at the Technical Committee meeting which will be held on October 27th. Art agreed that they would be willing to act as consultants for us and help us review the work that Enviro-Chem is doing.

Gardner Vose will be the person from the New York office who will be with you. I suggested that he arrive on the evening of the 26th so that you would have an opportunity to spend some time with him so that he isn't going into the meeting cold. When we receive the report from Enviro-Chem, that was presented to the Board of Directors yesterday, we will make a copy and send it to Art so that they will have that to review well in advance of Gardner's visit.
